WARNING

To reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture.

To reduce the risk of fire or electric shock, do not expose this apparatus to dripping or splashing, and do not place objects filled with liquids, such as vases, on the apparatus. Do not install the appliance in a confined space, such as a bookcase or built-in cabinet.

As the main plug is used to disconnect the unit from the

mains, connect the unit to an easily accessible AC outlet. Should you notice an abnormality in the unit, disconnect the main plug from the AC outlet immediately.

Do not expose batteries or apparatus with battery-installed to excessive heat such as sunshine, fire or the The unit is not disconnected from the mains as long as

it is connected to the AC outlet, even if the unit itself has

been turned off. The nameplate is located on the bottom exterior of the

Excessive sound pressure from earphones and

headphones can cause hearing loss CAUTION

The use of optical instruments with this product will increase eye hazard.

This appliance is classified as a CLASS 1 LASER roduct. This marking s located on the botton exterior of the unit.

To reduce the risk of fire, do not cover the ventilation opening of the apparatus with newspapers, tablecloths, Do not place the naked flame sources such as lighted candles on the apparatus.

Notice for the customers in the U.S.A. The dating code and the nameplate are located on the bottom exterior of the unit.

Owner's Record

The model and serial numbers are located on the bottom exterior of the unit. Record these numbers in the space provided below. Refer to them whenever you call upon your Sony dealer regarding this product. Model No.

Important Safety Instructions

- Keep these instructions.
- Heed all warnings. 4) Follow all instructions
- 5) Do not use this apparatus near water. 6) Clean only with dry cloth.
- 7) Do not block any ventilation openings. Install in
- accordance with the manufacturer's instructions. 8) Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including
- amplifiers) that produce heat. 9) Do not defeat the safety purpose of the polarized or grounding-type plug. Á polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the
- obsolete outlet. 10) Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
- 11) Only use attachments/accessories specified by the manufacturer. 12) Use only with the cart, stand, tripod,
- bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to
- avoid injury from tip-over. 13) Unplug this apparatus during lightning storms or when unused for long periods of time. 14) Refer all servicing to qualified service personnel

The following FCC statement applies only to the version of this model manufactured for sale in the U.S.A. Other versions may not comply with FCC technical regulations.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the

- Increase the separation between the equipment and
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

unplugging the power cord. To turn off the Automatic Standby function This system is equipped with an Automatic Standby function. With this function, the system enters Standby mode automatically in about 30 minutes when there is no

"AUTO. STBY ON" appears.

• "AUTO. STBY" appears in the display for 2 minutes before the system enters Standby mode.

 The Automatic Standby function is invalid for the tuner function (FM/AM), even when you have enabled it. • The system may not enter Standby mode automatically in the following cases:

-while an audio signal is being detected. during playback of audio tracks or files. -while the preset Sleep Timer or Play Timer is in process • The system counts down the time again until it enters Standb

mode, even when Automatic Standby function is enabled in the

following cases: -when an iPod/iPhone/iPad is connected. —when a button on the remote or unit is pressed.

1 Press the $1/\bigcirc$ 12 to turn on the system.

To turn off the beep sound

The system is set at the factory for the key-touch confirmation beep to sound when you press a touch panel key on the unit. You can turn off the beep sound. 2 Press and hold ■ 5 and VOLUME – 9 on the unit for 3 seconds or longer

If you want to set the beep sound to on, use the same procedure as in step 1, 2.

Even if the beep sound is set to on, the system does not beep to confirm key-touch while the Dock indicator is flashing, although operation of the touch panel is enabled even while the Dock indicator is flashing.

Messages

CAN'T PLAY: You have inserted a disc that cannot be played back on this system

COMPLETE: The preset operation ended normally. **ERROR:** Unpredictable situations or an unknown device is connected

FULL: You tried to program more than 25 tracks or files

LOCKED : The disc slot does not work. Contact your nearest Sony dealer **NO DISC:** There is no disc in the player, or you have

loaded a disc that cannot be played. **NO STEP:** All of the programmed tracks have been

NO SUPPORT : An unsupported iPod/iPhone/iPad is

connected or the iPod/iPhone/iPad whose battery is empty is connected. **NO TRACK:** There is not playable files on the CD disc. **NOT USED :** You tried to perform a specific operation

under conditions where that operation is prohibited.

PUSH STOP: You pressed PLAY MODE 19 during

playback in the CD function. **TIME NG:** The Play Timer start and end times are set to

Notes on discs • Before playing, wipe the disc with a cleaning cloth from the center out to the edge.

static spray intended for vinyl LPs. Do not expose discs to direct sunlight or heat sources such as hot air ducts, nor leave it in a car parked in direct sunlight.

thinner, or commercially available cleaners or anti-

Do not clean discs with solvents, such as benzine,

On safety • Completely disconnect the power cord (mains lead) from the wall outlet (mains) if it is not going to be used

for an extended period of time. When unplugging the system, always grip the plug. Never pull the cord itself. • Should any solid object or liquid get into the system, unplug the system, and have it checked by qualified personnel before operating it again.

• The AC power cord can be changed only by a qualified

On placement

• Do not place the system in an inclined position or in locations that are extremely hot, cold, dusty, dirty, or humid or lacking adequate ventilation, or subject to vibration, direct sunlight or a bright light.

· Be careful when placing the system on surfaces that

have been specially treated (for example, with wax, oil,

polish) as staining or discoloration of the surface may

• If the system is brought directly from a cold to a warm location or is placed in a very damp room, moisture may condense on the lens inside the CD player, and cause the system to malfunction. In this situation, remove the disc, and leave the system turned on for about an hour until the moisture evaporates.

On heat buildup

have become hot.

30 minutes, and turn it back on.

 ${}^{\bullet}$ Heat buildup on the unit during operation is normal and is not cause for alarm. • Do not touch the cabinet if it has been used continuously at a high volume because the cabinet may

• Do not obstruct the ventilation holes. On the speaker system This speaker system is not magnetically shielded, and the picture on nearby TV sets may become magnetically

distorted. In this situation, turn off the TV, wait 15 to

Cleaning the cabinet

Clean this system with a soft cloth slightly moistened with a mild detergent solution. Do not use any type of abrasive pads, scouring powder, or solvents, such as thinner, benzine, or alcohol.
